PROJECTS

Air Quality Index Analysis of Major Indian Cities Using Power BI (2015–2024)

This project presents an interactive Power BI dashboard analyzing 10 years of Air Quality Index (AQI) data across five major Indian cities to visualize pollution trends and support environmental decision-making.

Sales Performance Analysis Dashboard using Excel

An Excel dashboard created to analyze sales data using charts, KPI cards, Pivot Tables, and slicers.

LoRa-Based Soil Nutrition Monitoring by Peer-to-Peer and Mesh Wireless Network

An IoT-based smart irrigation system uses sensors and AI to monitor soil and environmental conditions, enabling automatic watering and early crop disease detection

Audio Amplifier Using 555 IC

A 555 IC audio amplifier uses PWM to convert input sound into amplified output, driving a speaker efficiently with simple components.

INTERESTS

- Data Analytics
- Web developer
- 3D printing

COMPUTING KNOWLEDGE

- power bi
- SQL
- Excel
- Knowledge in HTML
- Having knowledge in Python

SOFT SKILLS

- I have good communication skill & problem solver with Analyzing challenges, identifying solutions.
- Great Team player & Good listener, Dedicated worker, and time management.
- I have good creativity mind and Thinking innovatively, generating ideas.

HOBBIES

- Drawing.
- poem writing.
- I explore many different things.
